

**GE351****COMPANY MANAGEMENT**

# Introduction to the BPMN 2.0 standard

 Laboratory course**DURATION**  
**2 DAYS****REGULAR FEE**  
**955 \$****PREFERENTIAL FEE**  
**860 \$**

## Objectives

To provide the knowledge and skills required to understand the main elements of the BPMN (Business Process Model and Notation) standard and to produce business process models in Visio.

## Targeted audience

Analysts, managers, business process designers, business architects and IT professionals.

## Prerequisite

None.

## Content

- Introduction to the concepts of management by process (BPM- Business Process Management)
- Overview of the features of the BPMN 2.0 standard
- Conventions for modeling processes
- Orchestration and collaboration diagrams
- Exercises and practical examples of modeling various types of processes
- Overview of Visio interface: menus, functions, templates and useful mapping shapes
- Overview of useful Visio functions: connecting shapes, modifying shapes, creating templates, use of shape data and relationship between shapes, layout and printing
- Tips and tricks for working quickly and using a structured mapping approach.

## General Note

This course is presented using the 2013 Professional version. Students are asked to bring personal business mapping examples to class to help target their learning needs.

## Exam Note

This training provides the basics for future certification in the BPMN 2.0 standard.
