MICROSOFT WINDOWS

Windows 10 Deployment using MDT (Microsoft Deployment Toolkit)

 Laboratory course**DURATION**
4 DAYS**REGULAR FEE**
1 825 \$**PREFERENTIAL
FEE**
1 640 \$

Objectives

To provide the knowledge and skills required to successfully handle the migration of data and user profiles, ensure application compatibility and deploy Windows 7/8.1/10 Microsoft Office 2010 and other office applications.

Targeted audience

Level 2 or 3 system and support personnel who are familiar with Windows system administration.

Prerequisite

Knowledge of Windows system administration.

Content

- Introduction to the deployment process
- Overview of deployment technologies: Sysprep, WinPE, WIM, WDS, etc.
- Preparing response files for WSIM
- Automating the migration of user data with USMT
- Installing and configuring MDT (Microsoft Deployment Tools)
- Managing the installation of applications, drivers and parameters with MDT
- Creating and capturing a Windows 10 reference image
- Deploying a reference image in LTI mode (LiteTouch)

General Note

Most of the features discussed are available for Windows image deployment (10, 8.1, 7, 2019, 2016, 2012 R2 and 2008 R2).
