# Installing, Configuring and Administering Exchange Server 2019

 Laboratory course**DURATION**  
**3 DAYS****REGULAR FEE**  
**1 435 \$****PREFERENTIAL FEE**  
**1 290 \$**

## Objectives

To provide the knowledge and skills required to install, configure and administer an Exchange 2019 server in a central-site environment.

## Targeted audience

All networking specialists (other than DBAs).

## Prerequisite

Experience with Windows system administration (Course MS528).

## Content

- Overview of Exchange Server 2019
- Planning before deployment
- Installing Exchange Server
- The architecture of Exchange Server 2019
- Managing mailboxes
- New public folders
- The features of Anywhere Access (OWA, Outlook AnyWhere, EAS)
- Security and hygiene strategies for messaging systems
- The concept of archiving and retention policies for Exchange
- Recovery and high availability (DAG)
- Migration, strategy and planning

## Material Note

The course material is in English.

## Exam Note

This course partially prepares you for the Microsoft 70-341 and 70-345 certification exams. This course is focused on Exchange 2019 but also applies to Exchange 2016 since the interfaces are identical.
