WEB DEVELOPMENT

TYPO3 for Edimasters

 Laboratory course**DURATION**
1 DAY**REGULAR FEE**
0 \$**PREFERENTIAL FEE**
0 \$

Objectives

To provide the knowledge and skills required to manage the content of a Web site built using TYPO3.

Targeted audience

Webmasters responsible for updating the content of Web sites built with TYPO3.

Prerequisite

Experience with text editors and Internet navigation. Knowledge of [HTML](#) (Course WE106) is recommended.

Content

- Introduction to TYPO3
- Basic principles: the difference between the front-end and the back-end
- User interface features: the modules menu, the page tree and its contextual menu, the content zone, the document header zone
- Adding a page with its meta-data (type, temporal meta-data, title, navigation title, relative URL, access control parameters, visibility, etc.)
- Icons: save, save and display, save and quit, quit, add and delete
- Operations on a page: modify, move, delete
- Adding multiple pages
- Adding content elements to a page (text, text plus image, image set, lists, tables, site map, form, email)
- Managing text with the enriched content interface: editing, highlighting, creating lists, adding and managing hyperlinks, inserting special characters, code clean-up
- Operations on content: modify, delete, move, reposition
- Adding images to a page
- Managing downloadable files

General Note

The course is presented using version TYPO3 9.5

440 René-Lévesque West Blvd, 5th Floor, Montreal (Quebec) H2Z 1V7
